

# WHITEPAPER

## (SHORT VERSION)

# A note from your CEO:

“

Dear Reward Miner;

**Firstly, thank you for your interest in Reward Miner. We have been overjoyed with the support we have received thus far!**

This whitepaper has been designed to include everything you need to know about our project.

Our end objective is to see all of our stakeholders comfortable, confident and well informed about the Reward Miner project so that you get the best out of it; because ultimately your success is ours.

We look forward to serving you.

# What is Reward Miner?

## Who we are and what we stand for:

**Reward Miner Coin Pty Ltd.** is a lawfully incorporated Australian entity specifically created to provide governance for the Reward Miner token and its ecosystem.

**Reward Miner Coin** itself is a hyper deflationary, passive income generating cryptocurrency which rewards holders with **\$BUSD** stable coin, paid at a percentage of the project's daily market trading volume. The cryptocurrency project will be supported by a ecosystem of complimentary revenue generating business modules which will drive trading volume into the project.

## How are we different?

### Superior investor security & a project team you can trust.

- Incorporated business entity in Australia & fully doxed team.
- 2 – 3 year lock on project team's token allocation with two part staged release.

### Retail investor protections built in.

- 1 year wallet lock on private sale investors.
- 6 month wallet lock on priority presale investors.
- Private sale & priority sale investors will still earn BUSD rewards during lock period.
- 53.5% of all tokens are locked for at least 6 months!
- Anti-whale policy – Maximum single sale transaction limit of 500 billion tokens.

### Clear marketing strategy & expertise to execute it.

- High calibre team with plenty of experience running successful businesses.
- The Reward Miner at its core is a marketing agency that bridges the Crypto Defi sector and the real world with the initial target industries being the Resource construction and mining sector.

Our **mission** is to be a community driven organisation that delivers a successful long term income generating asset for our stake holders.

Our **goal** is to be considered "different". The Reward Miner team aims to raise the bar on what investors expect from a crypto investment product.

We hope to deliver a **positive** business case that others will follow, with the intention being that this will elevate the crypto investment industry's reputation and attract fresh investors into the sector.

# Trading volume

How the team behind Reward Miner will deliver daily trading volume:

Maximising daily volume through the \$RMC token means that holders will see increased \$BUSD reflections. Our volume generating utilities can be broadly categorised into four areas of focus.

## GENERAL MARKET TRADING OF \$RMC TOKEN:

Boosted by the following facilities/promotions:

- **Directors Dash promotions** - [DAILY for the first month].
- **Monthly buy back and burn** - [Funded in part by token assets and reflections].
- **Monthly prize pool wallet purchases** - [Funded by the BUSD promotion wallet].
- **Monthly Burn Wallet purchases** - [Funded by the BB&B wallet].
- **Moonshot Launch Promotion** - [Huge one off boost to the 1st month's trading via the airdrop wallet].

## \$RMC ASSET / TOKEN RE-INVESTMENT:

The rewards from token assets will be reinvested in \$RMC and distributed via the below % split:

- 60% Buy back and burn wallet.
- 40% Marketing wallet.

The assets held in Y-5 Trader Token will be held for capital gains and then used to provide value for \$RMC investors in due course.

All \$RMC assets are held in multi-signature wallets and all transactions require authority of RMC asset oversight panel.

## BUSINESS MODULE / ECO-SYSTEM SALES:

Project utility ecosystem sales revenue will be funneled back into Reward Miner via the following distribution:

- 30% will be used to replenish the Business Builder wallet to pay affiliate agents their commission.
- 20% will be reinvested to increase holding stake percentage & rewards to expand in-house head count.
- The remaining 50% will be retained in FIAT for taxes and other overheads.

“  
KEY FACT:

\$RMC will be cross-chain from launch. That means that a project based on Polygon, Avax, Ethereum or the BSC can be released on our launchpad from the very start!

## X-MINER GOVERNANCE TOKEN:

Reward Miner coins will be purchased to pay holder rewards against X-Miner governance token trading volume:

- 5% of daily trading volume of X-Miner token.

## DONT FORGET:

Our trading volume will also be boosted hugely by:

- NFT marketplace sales
- P2E Game revenue
- Staking and farming returns
- \$RMC DEX tax
- IDO Launchpad profits

# What next?

Our project roadmap:

# Maximising your investment

## How to make the most of your Reward Miner experience:

### MOONSHOT LAUNCH

- **What?:** 100% of the Airdrop wallet (10 trillion tokens) will be dropped equally to qualifying wallets.
- **When?:** At the end of the first month of trading (one time promotion).
- **How do I qualify?:** Simply be one of the first 750 to invest 3 or more BNB into Reward Miner Coin during the first 28 days of trading, OR be one of the first 250 to join the Business Builder affiliate program prior to launch.

### MONTHLY BUSD PROMOTION

- **What?:** Every day, the BUSD Promo. wallet (80 trillion tokens) will accrue BUSD rewards. At an identified day at the end of the month this wallet will make one large purchase of \$RMC, which will then be dropped equally to qualifying wallets.
- **When?:** Each month of trading.
- **How do I qualify?:** Hold a wallet of at least 250 billion \$RMC and increase your wallet size by 10% from the preceding month.

### DIRECTOR'S DASH

- **What?:** For 60 minutes, at a specified time, the CEO will match any and all investments of between 5-20BNB (which will be announced before each event).
- **When?:** Each day during the first month of trading, then four times a month (sporadically).
- **How do I qualify?:** Just catch the Director's Dash event as and when it is announced on the socials. Be ready with your BNB because this is a hugely effective way of increasing your wallet size!!!

### STAKING

- **What?:** Utilise \$RMC's staking platform to put your digital assets to work! Stake your \$RMC tokens on a monthly rolling basis and earn a minimum 10% APR return (yearly equivalent) on your holdings.
- **When?:** Ongoing from launch.
- **How do I qualify?:** Stake your \$RMC on our platform from launch.

#### DID YOU KNOW?:

The homepage of our website is going to feature a countdown clock which also displays the balance of both the **monthly burn wallet** and the **monthly BUSD airdrop wallet**:  
[www.rewardminer.io](http://www.rewardminer.io)

“ There are multiple promotions which will be running alongside the launch of Reward Miner Coin; be sure to take advantage of them to efficiently increase your wallet size and earn huge rewards in BUSD. Remember, the first **100 wallets** to reach **4 trillion** tokens will earn a coveted spot on the **X-Miner** Board (see page 13)! ”

# BUSD Reward Projections

An illustration of what your investment could be worth (daily returns):

■ **BUSD Returns per day (per \$100k daily \$RMC trading volume)**

For every **1 TRILLION** \$RMC tokens held, you would receive **\$14/day** in \$BUSD rewards for every \$100k of \$RMC trading volume.

That's **\$510** BUSD per year!

For every **500 BILLION** \$RMC tokens held, you would receive **\$7/day** in \$BUSD rewards for every \$100k of \$RMC trading volume.

That's **\$2555** BUSD per year!

For every **100 BILLION** \$RMC tokens held, you would receive **\$1.40/day** in \$BUSD rewards for every \$100k of \$RMC trading volume.

That's **\$511** BUSD per year!

For every **25 BILLION** \$RMC tokens held, you would receive **\$0.35/day** in \$BUSD rewards for every \$100k of \$RMC trading volume.

That's **\$127.75** BUSD per year!

“

If \$RMC averages \$100k in daily trading volume, the ROI (in BUSD rewards) will be **170.33%** for all investors who buy at launch price and hold for 12 months.

If BNB is \$300 and \$RMC is 125B/BNB (as per launch price), less taxes, investors in these examples would see their initial investments returned 100% (in BUSD rewards) after only \$20.6m of \$RMC trading volume.

”

All calculations are based on a \$300 BNB and \$100,000 daily trading volume.

Remember; this does not factor staking, re-investment of BUSD rewards, airdrops, token burns and the capital gains you will see as the price of \$RMC rises.

# The X-Miner Board

## How to become a key member of \$RMC:

When Reward Miner was conceptualized the main goal was to create a diverse, community driven project. We wanted our core investors to feel part of the team and the project to be an experience rather than simply being a transactional entity. For this reason, we have created the X-Miner Community Board.

During the operation of Reward Miner Coin the X-Miner board will assist the core project team by democratically making key management decisions along the way by majority vote.

### The key areas which the X-Miner Community Board will govern:

- Marketing strategy & promotions
- Project partnerships
- Project utility expansion

Our most important principle of all is **TRANSPARENCY**. That's why we have a small committee of signatories who plan, manage and authorise all conduct with regard to \$RMC asset investment, alongside the CEO.

### Eligibility for the X-Miner board:

In order to qualify for a place on the coveted X-Miner Board, simply accumulate and hold a total of **4 Trillion \$RMC**.

Initially all private sale investors will form the X-Miner Community due to the size of their contribution and 1 year wallet lock period. Other members that invest in the project at a later stage will be accepted into the X-Miner community, but this community will be capped at **100 members**.

Proof of token holdings will need to be provided by declaration of the investor's wallet address, which needs to be accompanied by a screen shot of token holdings to verify ownership. This should be emailed to [Xminercommunity@gmail.com](mailto:Xminercommunity@gmail.com) before acceptance is granted into the X-Miner Community. The X-Miner community's token holdings will be monitored monthly and any members that fall below the eligibility threshold will be removed from the group and replaced.

# We need your help!

## Ways you can contribute to take your project forwards:

The involvement of our community is vital to the continued success of the Reward Miner project. There are so many ways that you can help us, which we have listed below. Remember, the more trading volume the project sees overall, the more BUSD rewards you will collect.

- **Word of mouth:** Tell everyone you can think of about Reward Miner and the opportunities that lie within the project. Get the word out to your friends, your family, your neighbours, even your dog!!! Investors who join a project through word of mouth are much more likely to fully commit and engage with the community.
- **Get on the socials:** Get yourselves online and on to our social platforms. Contribute in the chat, like and re-tweet posts and join in our various AMAs ('ask me anything') sessions which will be advertised on Telegram. This is VITAL for continued growth. Here are some links to our social channels - [Telegram](#) / [Twitter](#) / [YouTube](#)
- **Vote!:** Yes, you can vote for us. There are so many channels which allow you to upvote a coin/token to have it listed. The more upvotes the project receives, the more exposure it gets. Here are some of the main sites to hit and vote for Reward Miner - [Coinsniper](#) / [Coinhunt](#) / [Coinalpha](#) / [Coinvote](#) / [Watcher Guru](#)

“  
Thank you so  
much for choosing  
to become a  
member of the  
Reward Miner  
family. **We won't**  
**let you down.**
